WHAT IS THE POCAHONTAS COUNTY FAIR?

The Fair is largely an exhibition. It is a graphic method of portraying what has been accomplished by all agencies, associations, organizations, and industries since our last Fair. It is a blackboard upon which are pictured the results of progress, improvement, initiative—the application of better methods and closer study. It is a great moving picture of the year's activities. Thousands of accurate photographs of the County at its best go into the making of this picture. The Fair should be an occasion upon which are displayed the results of the year's education, when the rate and direction of progress can be determined. This is done through a system of exhibits, competitions, contests, demonstrations, explanations, and entertainment whose main features are better men and women, superior crops, animals, machinery, the products of the home and school, a higher standard of living.

The Pocahontas County Fair is an occasion of mutual interest to every one in the County. It is a County gathering of people interested in their communities, in themselves, and in everything that tends to improve the locality, the farm, the home, the church and the school.

The Pocahontas County Fair leaves no one out of its program. Everyone is included from the youngest, who figure in the Children's Contests, to the oldest, who have in their charge the cherished historic relics. No interest in the County is omitted from the Fair program. The local paper, the school, the church, the club, the communities, the boys and girls, the farmers and farm women, all have a place in this work-together festival.

The Fair is the Home Coming Season for Pocahontas. It is a time when we welcome back our friends and relatives. The family reunion is not a new social institution in Southern life. There have been family reunions but they have been few and far between. The automobile and modern system of highways have added a new feature to this social event.

The Pocahontas County Fair blazes new trails. It gets all kinds of people working together in new relationships. New abilities are discovered, new friends made and acquaintances renewed. Talent is developed, and best of all, people learn new ways and means of working together.

And talking about pictures. No picture is complete without its frame. The setting of the Pocahontas County Fair is in keeping with its high aims and aspirations. The site is that of old pioneer Fort Drennen, where the first school teacher in Pocahontas County was killed by Indians in 1784. Its beautiful meadow lands lie beside the clear waters of Greenbrier River; it is rimmed in with the forest clad Greenbrier Hills, and in the distance it is overlooked by the lofty ranges of the Back Alleghenies.

SUGGESTIONS FOR EXHIBITING BIRDS

Select birds for the exhibition early. Separate them from the flock one or two months before the show.

In selecting young birds, it is much to your advantage to select birds that are of good size; that are fairly well matured. Those that have taken the shape of their breed are the kind to exhibit. Either of the following books will help anyone in selecting the proper birds and the latter will give you much advice in preparing birds for exhibition: **American Standard of Perfection** and **Poultry for Exhibition**. Either can be secured from the Reliable Poultry Journal Publishing Company at Quincy, Ill.

In showing light-colored birds, they should be washed. Prepare them for shipment carefully; be sure the coop is high enough. Several small coops are much better than one large coop.

RULES

Exhibits in this department are limited to Pocahontas County Poultry for the reason that we do not have sufficient space to take care of the outside displays.

All entries must be made on entry blanks furnished by the Association.

Entries in this department should be made by Monday August 17th. All entries received after this date will be subject to available space. It is very important that we have your entry in by the 17th, as other use will be made of extra space. Enter the number of birds you intend to exhibit so that we can reserve space. You may change the form of your entries when you bring your exhibits, but it is very important that you enter the correct number of birds by above date.

Entries shall consist of single birds and trios.

The three high scoring persons will be given transportation to Farm and Home Week at Morgantown next February, and the Fair Company, will pay \$5.00 to each man for expense money while there. We would like to have a larger number enter the Contest this year. Pocahontas won First Place in 1936. Let's do it again in 1937.

FOREWORD

The future belongs to the nation and the people with the best bodies, other things being equal. Rome's strength was undermined by malaria; France could not dig the Panama Canal because she was too busy digging graves in the Canal Zone. Bad health is often mistaken for bad morals; diseased minds too often are the results of diseased bodies. Play among children is the greatest preventive for bad habits. It is blasphemy to let children die of neglect and charge their death to the providence of God. He wants us to be healthy; He wants all the talents with which we are endowed developed; He wants us to serve.

Education has its trinity even as religion has: the mind, the body, the spirit. If bodies can be made stronger, if health can be made more general; if wholesome recreation and games can be made more universal; if the spirit of fair play can become the possession of more of our children and our people; if the traffic in short coffins decreases—this new educational and recreational venture will have justified itself.

DEPARTMENT M

"Ye Olde Time Exhibit"

T. S. McNEEL, Marlinton, Superintendent

ONE OF THE UNIQUE AND BIG FEATURES OF THE POCAHONTAS COUNTY FAIR

Every Exhibit Is Old, Yet New to the Rising Generation

Aside from being an interesting exhibit, it has an educational value, in that it illustrates how the pioneers, who first came to this fair valley, endured the hardships, subdued the wilderness, cleared the land and made it blossom into fields of golden grain and happy homes. A race of honest, sturdy highlanders, they did their work well. Let us not forget how they lived, but keep alive the memory of their privations and hardships. This is what this Department is endeavoring to do. Will you help us?

The exhibit has been good all along since it was started on a small scale a few years ago, but this year we want to have the biggest and most interesting exhibit we have ever had. One worth coming a thousand miles to see. Everybody is interested in antiques and let us show the people what an exhibit Pocahontas County can put on. Nearly every family in the County has an interesting relic that would be rare if we could only get it here.

What do we want? Why, anything you can think of that would be of interest—old cooking utensils, pots, kettles, pans, skillets ovens, bakers, old chinaware, dishes, pitchers, tea pots, old furniture, chairs, chests, beds, tables, benches, candlesticks, tools for working wood and flax, brass candlesticks, lanterns, firearms, guns, pistols, and a hundred other things, if we had the space to name them.

Droop Mountain Battlefield relics, especially, are wanted since the State Park is established.

Now, dear people, the Superintendent does not have the time to visit all the homes in the County and collect these exhibits, so won't you help him? You let him know by mail or phone and he will come and get what you have. Nothing has ever been lost at the Fair and everything will be cared for and returned. Begin right now and search your attics and outhouses for something for the Fair.

UNITED STATES FOREST SERVICE

White Sulphur Ranger District

An exhibit is planned by this organization which will illustrate by models and charts the various activities carried on in Pocahontas County.

Improvements by the Forest Service are carried on in conjunction with the Civilian Conservation Corps Camps located on Federal lands in Pocahontas County.

This large wilderness area is being developed to produce both timber and recreation resources. Fire protection, development and stocking of fishing streams, game husbandry to promote better hunting, and the establishment and construction of picnic sites and free camping areas are projects which are well underway at the present time.

It is felt that these improvements are fundamental to the economic success of any county containing large areas of forested land and it is the desire of the U. S. Forest Service to so cooperate with the State and County organizations as to produce the maximum economic and social benefits from this land.
